JERRY MCDONALD

jmcdonald.dad.dev@gmail.com
github.com/JerryMcDonald

Skills:

- ◆ React + Hooks || Vue || Node + Express + Socket.io || Material-UI + Tailwind + Bootstrap
- ◆ Google Cloud + AWS + Heroku + Netlify || MySQL + Sequelize + PostgreSQL + MongoDB

Work Experience:

- | | |
|---|---|
| Lagniappe Relief Baton Rouge, LA
Developer 01/2017--01/2020 | <ul style="list-style-type: none">• We are developing technology to gather a database of relief effort information quickly and accurately.• Our goal is to align goodwill with people in need. |
| Eustis Engineering Baton Rouge, LA
Lab Manager 01/2017--01/2020 | <ul style="list-style-type: none">• I Assessed the subsurface conditions at hundreds of construction sites across Baton Rouge. |
| Nabors Drilling New Iberia, LA
Derrickhand 01/2010--01/2017 | <ul style="list-style-type: none">• Coordinated the installation, maintenance, and operation of oil field equipment across the gulf. |

Developed Applications:

Learning Resources Now (LRN) Full Stack Software Engineer

A community-based video chat application designed specifically for education

- I connected peers with socket.io, allowing for shared video, messages, and whiteboarding.
- We implemented a WebRTC-based browser-to-browser video communication.
- As a team, we built a stable community learning platform, useful in our current times.

Bar Crawl Full Stack Software Engineer

An application designed to help friends plan bar hops and keep track of each other

- I Combined Passport.js with Google OAuth to make sign-up secure and easy.
- We got hands-on with the Google Map API, resulting in a clean 'featureful' map.
- As a team, we were able to track and display friends' locations in real-time.

Organized Power Full Stack Software Engineer

A social networking platform for users to share current topics they feel passionate about

- I developed a 'Slack' like comment system for fun and stylish communication.
- As a team, we planned and correlated data, which led to efficient MySQL storage.
- We created a clean and responsive website, taking advantage of Tailwind CSS.

Education:

- | | | |
|---|---|------|
| Operation Spark | Advanced Software Engineering Immersive Program | 2020 |
| <ul style="list-style-type: none">• IBC Fundamentals of Javascript, Functional Programming, and Web Development Level 3 | | |
| Nicholls State University | Associate of Science: Safety Technology | 2015 |
| <ul style="list-style-type: none">• Safety Trained Supervisor Certification | | |
